Spacer for e-chains®	
unassembled	6005.XX
assembled	6015.XX

**Slotted separator**  
For a vertical subdivision. The slot allows basic vertical/horizontal shelving arrangements.

**Spacer**  
Separators can be fixed in position using spacers. The available interior height is reduced by 2mm per spacer (4mm when spacers are fitted on both sides). To avoid this, the parts can also be installed on the outside of the opening crossbar.

**Modular shelving system | Series 800**

- Secure separation even for large cables ● Easy assembly
- Robust, even for large cable diameters ● Modular ● Widths from 50 to 600mm
